Welcome Note

by EUI's Acting President

“

Dear EUI Community,

As we reflect on the Academic Year 2024-2025, I am filled with pride at our collaborative achievements. This year has seen our students shine in prestigious competitions demonstrating EUI's commitment to excellence across disciplines. Our institution has reached important milestones, including awarding 25 scholarships to outstanding students, forming strategic international partnerships, and welcoming new academic leadership.

This September will mark a defining moment in EUI's history as we celebrate the graduation of our first cohort. These trailblazers have set a remarkable standard for future generations of EUI students. Their success validates our mission to develop leaders who will drive progress in Egypt and beyond.

As we look ahead to 2025-2026, we do so with confidence and enthusiasm. With new academic programs, expanded research initiatives, and growing recognition in global rankings, EUI is poised for even greater impact. To our returning community members, thank you for your dedication. To those joining us for the first time, welcome to an institution where innovation meets opportunity.

Together, we will continue building EUI's legacy as a hub of academic excellence and transformative education.

”

Prof. Ahmed Hamad
Acting President, Egypt University of Informatics
